The Theatre

Action To Tonight

In non-professional acting presented this evening, the local Little Theatre production of Noel Coward's "Private Lives" provides a perfect example of the acting ability of those who do a superb job of the role of Amanda.

The former husband of the actress is equally intriguing. These two temperamental characters meet after five years of separation. Situations are handled with skill and a touch of humor. The play is a hard work on the part of the actors.

Walter and Frances Walters end the story of their lives. Taylor has been in the theatre for many years and his performance in this second performance is a credit to his talent. He will seek him in many of the roles he has played.

Walters is doing her first job. She is extremely good in the role of Amanda. She has promised flexibility that will make directors take notice.

Miss. To Participate In White House Education Conference

Mississippi is making plans to take part in the White House Conference on Education called by the President for November 28-December 1, 1955.

Six district conferences are being held from Sept. 2-15, inclusive in the following places: Jackson, Oxford, Hattiesburg, Columbus, Cleveland and Decatur. Invitations have gone out from Governor White to all county and separate district superintendents as well as county and separate district boards of education inviting them to these several conferences. Invitations have also gone out from State Superintendent Tubb inviting these same people and asking them in turn to invite other citizens of their community, and particularly, members and members-elect of the Legislature. An effort is made to enlist the interest of lay citizens and secure an attendance in these conferences in the ratio of three lay people to one educator. The theme of discussion in these six meetings as well as in the State Conference which will convene in October comprised of delegates elected in these several district conferences are:

- (1) What should our schools accomplish?
- (2) In what ways can we organize our school systems more efficiently and economically?
- (3) What are our school building needs?
- (4) How can we get enough good teachers—and keep them?
- (5) How can we finance our schools—build and operate them?
- (6) How can we obtain a continuing public interest in education?

Mississippi is allotted 18 delegates out of the 2000 delegates that will comprise the White House Conference in which these six broad questions will again be discussed.

REPRESENTATIVE SHOWING OF 4-H CLUB WORK TO BE FEATURED AT FAIR

A representative showing of the varied phases of 4-H Club work throughout the state will be on display at the third 4-H Club exhibit of the Mississippi State Fair, Oct. 10 through Oct. 15.

The exhibit will consist of the following divisions: The 4-H educational exhibits, the 4-H commodity exhibits, consisting of outstanding individual exhibits from each county in corn, cotton, sweet potatoes, canning, crafts and clothing; and demonstrations in cherrypie baking and timely educational topics, also state performances by selected counties including the Personality Improvement and the Song and Talent programs.

Each year in the 4-H department of the State Fair, five educational exhibits are placed on display by those outstanding 4-H Club members who were the year's National winners in the 4-H Awards Program. The exhibits are to be a picture of the club work for which these 4-H Club members have received national recognition, and will be in competition with one another for prize money which ranges from \$135.00 for 1st place to \$80.00 for fifth place. J. M. Dean, State Fair Secretary, has announced that these displays will be shown in the Agricultural Building.

During State Fair Week, in order to give the general public an insight as to the numerous activities of 4-H Club members, demonstrations are given several times by state high scoring teams to show the training 4-H Club members receive in the program.

Mississippi's milk production went up 12 per cent in the past decade even though the total of milk cows increased only 7 per cent during the same period, W. Lyons, Mississippi representative of the American Can Company, said today.

Mr. and Mrs. L. L. Kergonien spent the week end in Biloxi where they visited relatives.

Papers filed by Gerald V. Price, candidate for the office of Sheriff and Tax Collector, on Sylvan J. Ladner, nominee elected for this office, which were served on Sept. 7 for the purpose of allowing the boxes to be opened for examination of irregularities, were denied due to the fact that the papers were served later than the law allowed.

According to Price, the papers were filed with A. C. Hildreth, Clerk of Courts, to be served on Ladner. It was the understanding of Price that 12 days were allowed by law from the date of canvass by the Executive Committee following the elections. The date of canvass was on Aug. 25. Price contends that attorneys for Ladner stated that a three day notice had to be filed on Ladner inclusive in the 12 days and that the date of serving of the papers on Ladner should have been three days previous to Sept. 7.

Price said he advised the Executive committee that he had filed a suit of mandamus against Mitchell for having failed to serve the papers within the time prescribed by law. This suit will go before Judge Leslie Grant for hearing.

Should Price be successful in this mandamus, the boxes will be opened.

Bay High Clips
Pass Pirates 12-6
In Gridiron Opener
After trailing the Pass Christian Pirates 8-7 at the end of the third stanza, the Bay High Tigers broke through the Pirates' protective barrier for a fourth-quarter six-pointer to win their opening football game 12-7 Friday night at Pass Christian.
Left halfback Tommy Holden, a 175-pound letter earner, supplied the decisive score by ripping 22 yards around left end to suddenly quell the hopes of the Pirates. Pass Christian held the runner in the conversion attempt.
Eager to strike a revengeful blow for 1954's 27-0 shutout, the Pirates' coach Jack Holloway struck early in the opening quar-

A dazzling 96-yard touchdown dash in the fading moments of the third quarter wrote final to say hopes the St. Stanislaus Rockchaws might have held for their opener Friday night as they fell under the might of the Biloxi Indians 19-6.
Richard Strum, 170-pound Indian left-back letterman, spelled the difference as Biloxi gained revenge for the 12-6 defeat at the hands of the Rocks last year.
Strum, a fast-stepping, elusive runner, found a hole in the right side of the line when the Indians broke the backs to the wall, and broke the ball game wide open when he outran the Rockchaw secondary. Two minutes remained in the third period when he found the hole.
Biloxi opened the scoring in the first period on a sustained drive of 52 yards, then added another marker in the second.
It appeared that the Indians were on their way to a one-sided victory when Stanislaus fought back for a touchdown in the third period.
Biloxi's first touchdown stemmed from a recovered fumble. End Norbie Rosonet recovered Berch Wilbert's fumble on the Biloxi 48 after Wilbert had taken in a pass from quarterback Kenny Artigues.

Bay High attacked a narrow edge in first downs, 9 to 8; but fared badly in the fumble department. The Pirates gathered in the four Tiger bobbles and lost only one of two.
Two completions in the same number of attempts marked the Tiger aerial game, while the Pirates completed three of nine. Bay High drew nine penalties totaling 65 yards and the Pirates were assessed six for 30 yards.
Bay High will take a breather tomorrow night in preparation for an invasion of Leesville. Pass Christian will entertain d'Hervey's Warriors of North Biloxi.
Stanislaus will journey to Gulfport tomorrow night.

**"Owning State Farm
auto insurance is like
having a friend
at your side when
you need a friend."**

So states Mr. E. M. Poirer of Golden City, Missouri, in a letter written to his State Farm agent, after payment of a claim.

"The check from State Farm," he continues, "meant more than the money involved. It meant I had insurance when I needed it. I came to the conclusion that when State Farm says protection, it means protection. And it looks like you leaned over backwards to give it to me."

Yes, State Farm auto insurance gives outstanding protection—and at rock-bottom cost. State Farm Mutual aims to insure careful drivers only. Careful drivers keep accident costs to a minimum. The savings are passed back to the policyholders in the form of low rates.

No wonder more car owners insure with State Farm than with any other company! You, too, are invited to apply for membership. Just call:

UNIVERSITY MEDICAL CENTER TO BE DEDICATED OCT. 24

Mississippi's new University Medical Center in Jackson is to be dedicated on Monday, Oct. 24. The formal ceremony is to be held at 2:30 p.m. that afternoon.

Speaking at a dedication committee luncheon meeting in the Medical Center, Sen. J. D. Williams said, "We want everyone in Mississippi to see the wonderful institution the state has built for educating its doctors."

On Oct. 24, citizens of the state will have an opportunity to inspect a typical wing in the 300-bed teaching hospital, to visit the medical school and to see the services on the first floor, including the huge outpatient clinic.

Governor Hugh White will make the dedication address, the chancellor said, as he outlined tentative plans to a group of business men and officials who will work with representatives of the university on a dedication committee.

Explains Control Of Sassafras and Persimmon Sprouts

The control of sassafras and persimmon sprouts has been a problem on most farms in Hancock County for years. They seem to resist all efforts of killing them merely by cutting them back. Consequently, much research has been done in the control of these species by the use of some of the newer chemicals such as 2,4,5-T and a combination of 2,4,5-T and 2,4-D.

Sassafras and persimmon sprouts ranging up to 4 inches in diameter were treated by spraying the solution on the trunk of the sprout from ground line to about 18 inches above ground line. The chemical most effective was one part 2,4,5-T in 50 parts of fuel oil or burnt motor oil. The addition of 2,4-D did not seem to have any effect. The chemical was applied by a power sprayer or 2 1/2 gallon garden type sprayer or with a brush.

Applying the solution in November, after gathering crops, seemed to give a satisfactory kill. One gallon of the solution after mixing the concentrate and the solvent sprayer took an average of 12 seconds per sprout. Power spraying was much master, but hand spraying with a garden

Some trees continued to die into the second year. It will probably be necessary to apply a follow-up treatment after the second growing season to kill the few sprouts that survived the first treatment.
